POLY DURABILITY

For durability and a lifetime of carefree maintenance, it's hard to overstate the advantages of furniture made from today's high-density polyethylene (HDPE). Poly furniture beats wood hands down regarding it withstanding the elements, including the sun's hot rays, winter's ice, and intense summer downpours.

There's no need to bring poly inside no matter what the season—it can be left outside all year-round. Poly will hold its color for decades with minimal fading.

Unlike wood, poly won't rot, split, or crack, and is impervious to insect damage. Plus, because the color runs throughout the lumber, small nicks and scratches never need to be touched up.

Finally, poly furniture is easy to keep clean. An occasional washing with mild dish detergent and rinsing is all that's needed to keep it looking like new.

GET THE POLY ADVANTAGE

A Lifetime of Carefree Maintenance!

How ever you like to enjoy the outdoors, make it happen with Patiova. Whether it's just relaxing, spending quality time with family, or dining outdoors, poly furniture is the perfect way to help you "Live Inside Out!"

POLY
COLOR
CHOICES

It's a Colorful Life!

Whatever color you fancy, you'll find it. Perhaps your tastes run to warm naturals and neutrals? Choose from ivory, rich browns, or black. If you prefer deep, bold shades, we've got those in reds, greens, and blues.

WOOD BENEFITS

What are some of the benefits of using wood? Wood is a natural, earth-friendly product. Known as one of the most robust, versatile wood species, Southern Yellow Pine (SYP) is the wood used to manufacture PATIOVA outdoor furniture. The quality and availability of SYP are virtually unmatched.

Environmentally: Wood is a natural, earth-friendly product. Wood is a very renewable resource here in America. Due to improved forest management, more wood is available now than 25 years ago.

User Friendly: Wood can be sanded when scratched. If necessary, wood components can be replaced and easily matched. Wood can also readily be stained or re-painted.

Beauty: Left natural or stained, the wood grain pattern and golden color of wood provide visual interest and a high-quality look.

RENEWABLE RESOURCE

Lifetime Friendly

Live in harmony with nature. Wood outdoor furniture is so down-to-earth, it adds a whole new dimension to “living inside out.” Wood is a natural, earth-friendly, renewable resource. Think green—think wood!
